***Allowable Subject Matter***

1. Claims 1-35 are allowable over the prior art of records.
2. The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1, 12, 19, 25, 31 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts which teach a second node that provides a conflict response to the second request, the conflict response indicating that an ordering point for the data is migrating according to a second cache coherency protocol, which is different from the first cache coherency protocol (claim 1); the home node reissues the at least one snoop when another copy of the line of data exists in the system associated with a broadcast-based protocol and no copy of the line of data is returned in response to the request provided by the first processor in the forward progress protocol (claims 12, 25, 31); the owner processor providing a conflict response to the home node in response to receiving the snoop request while having the transition state associated with the data, the home node reissues the snoop request for the data in response to the conflict response from the owner processor (claim 19).

The remaining claims, not specifically mentioned, are allowed for the same rationale as set for their dependent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferable **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
